

## Specialty Contact Lens Agreement

In order to be fitted with specialty contact lens you must agree to the following:

1. Try to keep your appointments. If for some reason you miss an appointment it is your responsibility to reschedule your appointment. The reason is specialty contact lens manufacturers allow a 60 day window for lens exchanges. The fitting can be extended as long as the patient is continually involved in the fitting process.
2. Although the initial contact lens materials are included in the fitting fee the patient will be responsible for lost or broken lenses during the fitting process. If the doctor is able to get a reduced fee from the manufacturer, the savings will be passed along to the patient.
3. If there is a period of 30 days or more when you have not been examined in the office with your contact lenses we would assume you are satisfied with your contact lenses and your contact lenses will be finalized. If you are inactive for 30 days, new materials and fitting fees will be incurred. If your contact lenses were deemed medically necessary and you are inactive for 30 days you will have to wait until your benefits are active again to be re-fitted.

c

Specialty contact lenses requires a significant time commitment between the doctor and the patient. In order to achieve the best results timely appointments will keep the fitting process moving forward. The reward would be greater comfort and vision with contact lenses that cannot be achieved with eyeglasses or traditional contact lenses.
